There were several people down from Afton last night to attend the show. Berry Rich will leave tonight for Shamrock, Tex., to be away a month or more. The ladies are especially invited to hear Hon. Champ Clark at the Auditorium tonight. The P. E. O. chapter will meet with Miss Nannie Collins Monday afternoon at 3 o'clock. The fire department made a run to a house on South Thompson street early this morning. Miss Abbie Black returned this morning from a visit with her parents at Russellville, Ark. Jim Morris is starting a plumbing shop in the room recently vacated by the Elliott bicycle shop. Mrs. Clara Patterson who has been visiting Mr. and Mrs. August Schlieker left today for Dallas, Tex. Rev. Barney will preach in the Baptist church tomorrow at eleven on "The City of Refuge." Subject at 7:30 "Turning Over a New Leaf." Warren H. Myers arrived here this morning from Rochester, N. Y., on his long walk to San Francisco. He says he has made good time and expects to make an average of forty-nine miles a day. He will spend Sunday here and continue his journey Monday. There is good prospect that there is a movement on foot to build a two story 50 by 100 foot brick on South Wilson street, where the Ironside building now stands. This will give the east side of Wilson street between Canadian and Illinois a solid brick block. The coming year will see lots of substantial building in Vinita. Miss Vivian Hall of Oklahoma City, who has been spending a few days with Mr. and Mrs. J. A. Smith of the Leader, left today for her home. Miss Hall is stenographer for Supreme Judge Robertson, late candidate for governor and an appointee of Governor Cruce on the supreme court commission. It is understood by his friends that Judge Robertson will again be a candidate for governor when the election rolls around. Miss Jennie Mae Camp is home spending the holidays from the Christian University at Enid, where she has been attending school and studying singing under the celebrated Prof. Weasner, who has just recently come to the country and who formerly taught in the Royal Academy of Music in London, England. Prof. Weasner pronounced Miss Camp one of the best trained and most thoroughly taught pupils that had ever come to him in this country and said that Vinita was fortunate in possessing such a fine teacher as Mrs. W. B. Crawford, who taught her all she knew before going to Enid. Prof. Weasner and Mrs. Crawford both teach the Shakespearean method of singing. School will open January 2, 1912, and pupils are requested to meet their teachers in their usual rooms of the old buildings, after which they will march to their respective rooms in the new building, both high school and grade pupils. After January 19, 1912, new classes will be organized in the primary grades for the benefit of the pupils who have become of school age since last September. We hope parents will observe this request and not start children until above date. Arrangements are now being made for the formal opening of the new high school the last of January. We will have some good addresses by educators of our city also by members of the board of education, also the high school pupils will have an important place on this program. The ladies of the M. E. church will give a tea at the home of Mrs. Lee Barrett, on New Years day. A musical program will be rendered and everyone is cordially invited. 210-15 FOR SALE—The best farm in Craig county, 240 acres, \$35 an acre. Inquire here.

Used Wells as Granaries? In the counties of Kent and Sussex in England there are to be seen certain curious well-like excavations, popularly supposed to date from the time of Danish rule in England. These are invariably about three feet in diameter, and seldom less than sixty feet in depth. Ingress and egress were provided for by means of rude ladders or hide ropes. Various explanations have been offered to account for their existence, some supposing them to have been places of refuge, others that they were connected with secret forms of worship, still others that they were dug for the extraction of chalk and flint. The latter theory inclines to the view that the holes were made to serve as granaries. They are found close together in groups, corresponding with the habit of various tribes of clustering in restricted areas.—Harper's Weekly.

Correcting Willie. Papa and mamma and son Willie were crossing the ocean. Willie had done something for which his mother thought he needed correction, but not feeling equal to the occasion she turned to her husband. "John," she said, "can't you speak to Willie?" Papa replied in a thin, weak voice, "Howdy, Willie!"—Success Magazine.

GREETING

The year just closing has been exceptionally satisfactory for us, and we thank those who have helped us. We realize that our success comes from the staunch support we have received from those who have favored us with their patronage. And, we therefore take this opportunity to extend our most cheerful greetings for the season.

During the coming year, more than ever before, we shall endeavor to satisfy those with whom it shall be our good fortune to do business.
